Elster AMCO Water Launches New State-of-the Art Website

Ocala, Florida, 21 August 2007. Elster AMCO Water, Inc., part of Elster Group, the world's leading manufacturer and supplier of highly accurate, high quality, integrated metering and utilization solutions, announces the launch of its newly designed corporate website, www.elsteramcowater.com. The website was redesigned to be consistent with the Elster Group worldwide corporate structure of creating one global company with a consistent global corporate image.

"The Elster AMCO Water website will serve as a valuable tool to drive our water metering business," explained Thomas Butler, director of marketing for Elster AMCO Water. "It is one of the multiple mediums we are using to deliver our message that we are a world-class provider of advanced metering technology and intelligent metering solutions."

The website is state-of-the art and links to www.elster-evolution.com, a new interactive website showcasing **evolution**[™] AMI, the new advanced metering infrastructure (AMI) solution for the water industry.

"The link to the Elster-evolution website will also serve as a tool to introduce our new innovative product, **evolution**[™] AMI to the water metering market," added Butler.

The site also features information concerning the company's senior management team, news and press items, and its innovative metering solutions for the water utility industry.

An industry leader Elster AMCO Water continues its strong history of delivering solutions-based metering products and services to the North American markets of the water utility business.

Elster AMCO Water continues to invest in cutting edge technology and metering intelligence to deliver smart metering solutions to meet the needs of the water utility market.

-Ends.
